

Robotic Systems: Assessment 2 Personal Statement

Title of project undertaken by your Team:

How would you weight your individual contributions to the project across the Assessment 2 period (to total 100% e.g., 50/50, 33/33/33):

Team Member 1 (yourself): 50

Team Member 2: 50

Team Member 3:

Only if you have recorded an unequal contribution, please provide further information as to how and/or why this occurred, and your own attempts to constructively remedy the situation as a team:

If you have recorded an unequal contribution, please detail areas of your individual contribution to the project and how these meet the Intended Learning Outcomes of the unit. *You should support/justify the contribution stated above. You may wish to include descriptions of technical work undertaken, main challenges solved, and investment in the writing of the report:*

Unit Catalogue Page : <https://www.bris.ac.uk/unit-programme-catalogue/UnitDetails.jsa?ayrCode=22%2F23&unitCode=EMATM0053>

Please detail any issues or challenges you have faced in the execution (e.g., running) of the project. *Please do not provide detail on any personal circumstances, private information, or confidential information. Where personal circumstances have affected your ability to engage, please use the extenuating circumstances process:*

(URL to Extenuating Circumstances form: <https://www.bristol.ac.uk/engineering/current-students/>)

If you had absence(s) from the mandatory weekly supervision meetings, please detail why this occurred, and what actions you undertook to maintain engagement with your team. *As above, please do not include private or confidential details.*

Please briefly describe what you think would be a fair and reasonable outcome for all team members:

Digital Signature - Please type out your name to confirm the above statements are correct and true to the best of your knowledge:

Frank Panton
